

SHERIFF SCOTT ISRAEL
Broward Sheriff Fire Rescue's Just Drive Program

IN SUPPORT OF

TEEN SAFE DRIVING WEEK

PRESENTED BY

The Meagan Napier Foundation raises **awareness** about the dangers and consequences of **driving under the influence of alcohol**, while promoting **forgiveness** and **healing**.

Their presentations promote the importance of **DUI prevention** and the power of making positive choices. The Meagan Napier Foundation is truly effective in promoting DUI prevention because their story is very unique...

Meagan Napier and her friend Lisa Dickson were killed in a car crash by a drunk driver (Eric Smallridge) on May 11, 2002. Since March 2004, Renee (Meagan's mother) has made it her mission to share her story with as many people as possible in the hopes of preventing DUI crashes, injuries, and deaths.

To date, Renee has presented her story to over 100,000 people worldwide.

One remarkable aspect of Renee's powerful presentation is that she speaks with Eric Smallridge. His perspective provides real insight to part of the story others rarely get to hear. He shares the impact that his poor choice to drive under the influence has made on him and others as well as how it has changed his life forever.

Together, Renee and Eric are a powerful team that do an excellent job of using their tragedies and experiences for the benefit of others.

This is a presentation you surely do not want to miss!
